Precise and reliable diagnostic and optometric instruments designed to support accurate vision testing every day.

Diagnostic Instruments: Ophtalmoscopes

Specialist Ophtalmoscope 3.6V

Ref: OPH700

- Wide dioptre range: +44D to -45D lens range for optimal diagnosis in any situation.
- Auxiliary lens wheel for +/-10D, +/-15D and +/-30D step changes.
- Graticule and Filter Control: wide angle, intermediate, macular, slit, red free fixation cross, Cobalt blue (examination of corneal scars and abrasions in conjunction with flourescein dye).
- Pupilometer function: 1 to 8 mm.
- Included: handle, lithium battery, case, 1 bulb spare.

Replacement bulb

Specialist Ophthalmoscope Bulb 3.6V (Pack of 2)

Ref: OPH70001

Professional Ophtalmoscope 3.6V

Ref: OPH500

- Comprehensive lens range : +29D to -30D in single dioptre steps
- Auxiliary lens wheel for +/-20D quick step changes.
- Graticule and Filter Control : wide angle, intermediate, macular, slit, fixation cross, glaucoma, red free.
- Soft Brow Rest allows for easy positioning and protects your glasses.
- Included: handle, lithium battery, case, 1 bulb spare.

Replacement bulb

Professional Ophthalmoscope Bulb 3.6V (Pack of 2)

Ref: OPH50001

Retinoscope / Skiascope

Streak Retinoscope LED 3.6V

Ref: RET500

- Two position aperture: 4 mm or 1.7 mm to optimize brightness or resolution of the retinal reflex.
- Express confirmation of neutralization.
- Possibility to change the beam from divergent to convergent.
- Led illumination offers high contrast, image quality and longer battery life.

Replacement bulb

Diagnostic Instruments: Tonometers

Digital Applanation Tonometer Fixed

- Operates on the Goldman applanation principle for accurate measurement of intraocular pressure (IOP).
- Fixed R-Type model designed for installation on most tower-type slit lamps.
- LED display providing readings with a resolution of 0.1 mmHg.

Ref: DAT500R

Digital Applanation Tonometer Type Z

- Goldman applanation method of measuring intraocular pressure (IOP).
- Adapted to a wide variety of Z-style lower illumination slit lamps.
- LED display providing readings with a resolution of 0.1 mmHg.

Ref: DAT500Z

Tonometer Support for DAT500R

Ref: SL5TMR

Single Use Tonometer Prism / 100 pcs

Ref: DAT50010

Digital Applanation Tonometer 'Take-Away' (T)

- Goldman applanation method of measuring intraocular pressure (IOP).
- Removable and convenient to use on multiple slit lamps.
- Fitted to the guide plate on the optical axis for the microscope and illumination unit arm.
- LED display providing readings with a resolution of 0.1 mmHg.

Ref: DAT500T

Tonometers / Portable Slit Lamp / Fundus Lenses

Tonocare Non-Contact Tonometer

- Portable non-contact (air-puff) tonometer.
- Advanced optical and sensor technology for positional detection and puff control.
- Ready to use in less than 10 seconds.
- Readings for both eyes in as little as 30 seconds.
- Docking station with inbuilt printer.

Ref: TRM200

PSL Classic Portable Slit Lamp

- x10 & x16 magnifications.
- Advanced optics.
- Continuously variable halogen illumination.
- Aluminium chassis.
- Weight: 900 g (SL), 300 g (docking station).
- Dimensions: 238 x 116 x 210 mm (slit lamp), 205 x 138 x 40 mm (docking station).
- Docking station included.

Accessories

- Replacement Lithium Batterie: Ref. PSL50005

Ref: PSL500

Fundus Lenses Volk 90D lens

- General diagnosis & small pupil examinations.
- Field of view: 74°/89°
- Laser spot magnification: 1.32x
- Image magnification: 0.76x
- Working distance: 7 mm

Ref: VLK900

Fundus Lenses Volk 78D lens double aspheric

- Field of view: 81°/97°
- Laser spot magnification: 1.08x
- Image magnification: 0.93x
- Working distance: 8mm
- Provides great balance of magnification and field of view

Refraction Testing: Trial Frames

Essilor UB4
Universal Trial Frame

Ref: ESS304

- Accommodates up to 10 trial lenses (38 mm diameter).
- Adjustable nose bridge and temples (length and angle).
- Closed-frame temples design prevents hair entanglement.
- Easy to handle with flexible, smooth turning dials.
- Optional: pair of polarized filters for distance and near vision examinations.
- Spare Nose Pad for Trial Frame UB4
Ref: ES30490

Pair of Polarized Filter - Linear

Ref: ESS305

Universal Trial Frame

- Accommodates up to 10 trial lenses (38 mm diameter).
- Adjustable nose bridge and temples (length and angle).
- Simple to adjust and comfortable ear rests.
- Extra nose pad included.

Ref: ESS205

Half-Eye Trial Frame
for Children

- Accommodates up to 6 trial lenses (38 mm diameter).
- Adjustable PD - 54 to 58 mm.
- Adjustable temple length and nose rest.

Original Essilor Digital CRP Pupilometer

Ref: X81705

- Corneal reflection pupilometer for precise PD measurements.
- Monocular and binocular PD measurements for all distances between 35 cm and infinity.
- In case of abnormal patient's binocular vision, monocular PD can be measured.
- Digital display of monocular and binocular PDs from 48 to 77 mm (step: 0.5 mm)
- Automatic standby.
- Dimensions: W160 x D250 x H60 mm
- Weight: 0.7 kg
- Powered by two 1.5 V AA batteries (not included).

Filtration

A universal filtering system in a closed circuit, effective to minimize your water use and optimize your budget.

Neptune works in a closed circuit, with a double filtration system. During the day, filtration is carried out through sieving and decantation, ensuring that clear water is supplied to the edger. In the evening, the water is filtered again, and the container is cleaned several times to maintain a clean and safe working environment.

Edging Filtration Tank Neptune Mini

- Recommended for up to 5 frames per day.
- Filter change: after every 1200 lenses.
- Capacity: 25 liters.
- Dimensions: W350 x D500 x H690 mm.
- Electric power: 130W
- Power supply: 220 V
